EARLY EXPERIENCE WITH LAPAROSCOPIC SLEEVE GASTRECTOMY FOR THE TREATMENT OF MORBID OBESITY

Poland Syndrome and Breast Cancer in Males: A Literature Review

Extramammary Paget’s Disease in Males: A Cystectomy for Surgeons

Papillary Thyroid Carcinoma Manifesting as an Autonomously Functioning Thyroid Nodule: A Case report and literature review

Unusual Case of Isolated Pleural B-Cell Lymphoma

Functional Variants of the LEPR Gene in Patients With Hyperparathyroidism

Timeliness of Colorectal Cancer Diagnosis Lags in Underprivileged Patient Population

Assessment of manual skills proficiency of medical students considering surgical training

Herniation of the Falciform Ligament Through the Abdominal Wall: The First Documented Case of Laparoscopic Repair

Robotic-Assisted Cholecystectomy: Beyond the Learning Curve

Translating Pain Guidelines into Practice

A Novel Technique for Perineal Hernia Repair

Focal Transplant For Recurrent Cystic Fibrosis Difficile Colitis

Extensive Portal and Superior Mesenteric Vein Thrombosis Following a Laparoscopic Colon Resection for Benign Disease. Case Report

A Comparison of Robotic and Traditional Laparoscopic Approaches to Gallbladder Surgery

Etiology, Treatment and Outcome Pattern in Bilateral Gliarial Component Syndrome

Review of an Institution’s Experience with Abdominal Wound Dehiscence Using a Proposed Predictive Model and Risk Scoring System

Single Incision Laparoscopic Surgery as a Safe and Preferable Alternative for Diverting Loop Ileostomy and Colostomy

Endohrovoidal ultrasonic versus medianostomy in a community hospital setting

Surgical Treatment of Pilonidal Disease: 2-Plasty as a feasible alternative

Central Venous Access Port Devices: Comparison Between Subclavian And Internal Jugular Approaches In A Community Hospital Setting

Immunochemical and Microsatellite Instability testing of Colorectal Cancers for Lynch Syndrome: Incidence at a Community Hospital

Severe keloid scars secondary to chronic pseudofolliculitis barbae: A multidisciplinary approach to complicated reconstructive care

Single Incision Robotic Cholecystectomy Using the Da Vinci S Model Robot is Possible

Intramycobacterial Gene Therapy with Adeno beta-Catenin Preserves Cardiac Function by Increased Angiogenesis and Cell Survival in Type I Diabetic Rat

Preoperative MRI in breast cancer patients – how should we handle additional findings?

Aged Rats Have Increased Neointimal Thickening And Altered MCP-1/CCR2 Expression After Carotid Artery Angioplasty

Intelligent Medicine Based Therapy for High Risk Tumors in Children

Towards Personalized Medicine in Tissue Engineering and Respiratory Disease

Statin therapy in diabetic rats attenuates myocardial dysfunction via VEGF and Skp2/p27 pathway after myocardial infarction

VTE prevention through the application of evidence-based practice: Validation of a modified risk assessment tool

Bowel Recovery with Enteric (Alvimopan) after Elective Bowel Surgery in a Community Hospital

Inhibition of Prolyl Hydroxylase 3 (PHD-1) promotes neovascularization and improves blood perfusion in a mouse hind-limb ischemia model

Catastrophic Bleeding in Patients With Sternal Wound Infection

Giant Nevi in Children: Problems and Solutions

Ovarian Adrenal Rest Tumors: Rare Tumors of an Endocrine Disease

Severe endometriosis treated with laparoscopic surgical techniques: prognostic factors

Prevalence and Value of BRAF Mutation in Papillary Thyroid Cancers Treated in a Community Setting

Outcomes of patients admitted to the ICU with trauma: Does the weekend effect exist?

The Use of Simulation to Improve Technique and Procedural Confidence in Emergency Cardiopulmonary

Increased Incidence of ICU Admissions in Blood Alcohol Level (BAC) and Urine Toxicology (UTOX) Positive Patients with Penetrating Trauma: Level II Tra

Outcomes Following Central Cord Syndrome: Can Our Patients Walk the Walk?

Is CT Chest Sufficient to Make the Diagnosis of Blunt Aortic Injury? An Institutional Review of the Evolution of Radiological Diagnosis and the Treatment

RIFLE Criteria as a Predictor of Surgical ICU Outcomes for Patients with Acute Kidney Injury

Orthopaedic Injuries in Children: Boon or Burden for Pediatric Trauma Centers

Outcomes of Extreme Elderly Patients Admitted to the Surgical Intensive Care Unit
